

iClock 880

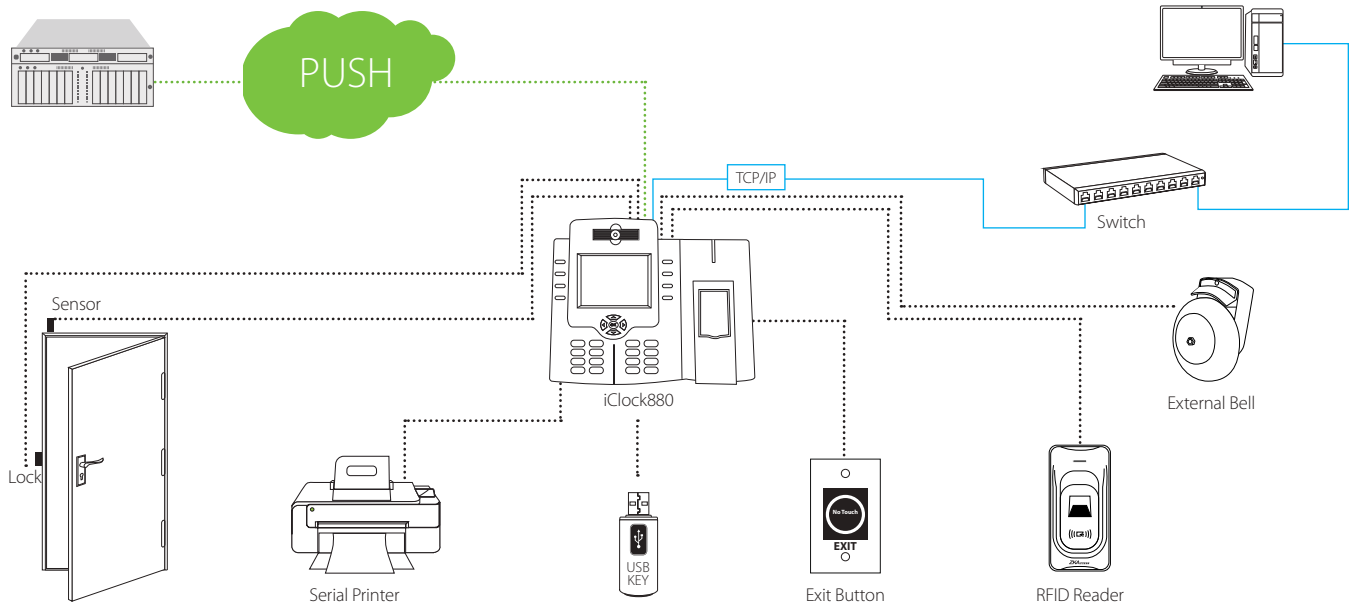

Access Control and Time & Attendance Reader

The **iClock880** time and attendance and access control terminal uses ZKTeco's latest high performance processing platform and advanced fingerprint algorithms to improve identification speed. The terminal can store up to 50000 fingerprint templates. Additional features include a camera and 3.5" color TFT-LCD display. Communication interfaces include Ethernet, Serial/485 and USB-Host. Backup battery is standard to provide protection during power loss events. Offering integrated access control functions, it can be used in multi-factor identification modes including fingerprint, password, RFID card or any combination.

Features

- 50,000 templates (1: N) and 800,000 transaction records
- 3.5 in color TFT display
- Internal Camera supports capture and display (or storage) of the user's image
- Standard backup battery
- Optional integrated proximity or smart card reader
- Built-in USB port allows for manual data transfer when the network isn't available
- 8 user-defined function keys
- Relay contacts for access control applications
- Multi language support
- Audible and Visual indications for acceptance/rejection of valid/invalid fingers
- SDK is available for OEM customers and software developers

Installation

Specifications

Fingerprint Capacity: 50,000 Templates

Transaction Capacity: 800,000 Events

Sensor: ZK Optical Sensor

Communication: Serial / 485, Ethernet, USB-host port

Wiegand Ports: Input & Output

Optional Functions: Prox, Mifare, RFID

Display: 3.5 in. Color TFT LCD

Power Supply: 12V DC 3A

Operating Temperature: 32° F - 113° F (0° C - 45° C)

Operating Humidity: 5% - 80%

Dimension: 8.4 in. x 7.0 in. x 1.87 in. (213 mm x 178.2 mm x 47.5 mm)

Weight: 4.4 lbs. (2.00 kg)

Part Number What's in the Box

iClock 880
