

Designed to Fit.

Epson TM-T70

Thermal Printer

- Front-facing controls, paper loading and receipt dispensing
- Small, space-saving footprint
- Designed to fit under counters
- Fast and versatile printing up to 170mm per second
- Same fast print speed for both text and graphics
- Ideal for specialty retail, food service, convenience stores and kiosks
- Ease-of-use features including drop-in paper loading, autocutter and status LEDs
- Two-year warranty

The TM-T70, with easy all-front access, is designed to fit under counters.

The innovative, space-saving TM-T70 printer with easy all-front access is the only receipt printer available today that is designed to operate entirely from the front of the printer. This means you can put it under a counter or on a shelf and free up your valuable counter space.

Big performance. Small footprint.

Get high performance and streamline your POS system with Epson's space-saving TM-T70 printer.

With its small size and low height (only 4.49" high), it's designed to fit under your counter or in other small spaces.

High-speed, high resolution text and graphics printing

The TM-T70 prints receipts and graphics at the same fast print speed of 170mm/second. And with its 180 dpi resolution you are assured of crisp, clear receipts and eye-catching logos. Barcodes are also supported, including 2D.

Easy to use. Easy to maintain.

The TM-T70 is designed to operate entirely from the front of the printer. It features front-dispensing receipts, front drop-in paper loading and front-facing controls.

Reliability you can count on

With a MCBF of 52 million lines, the TM-T70 features the same high reliability of the industry's best-selling TM-T88 printer series. The TM-T70 also features a sealed top for superior spill resistance and an optional cable management system for even more reliability.

Integration made easy

With Epson's wide range of Connect-It™ interfaces, the TM-T70 is compatible with today's best-of-breed and component-based systems. Interface options are available for USB, serial, parallel, Ethernet and wireless.
